

REISS Container System  
Perfectly organised.

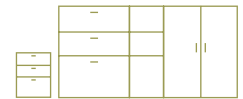

We know how to create offices.

# Consistent down to the last detail.

A perfectly organised office in no time at all – the REISS container system is the key. With their clever equipment details, a wide variety of shapes and their movability, our containers provide the perfect solution for organising and structuring your workplace. Store your materials easily and take advantage of the calm ambient effect of clearly structured functional areas to focus on the important to-dos.

STORAGE

Our quality and environmental management is certified according to DIN EN ISO 9001 and DIN EN ISO 14001. Since 2013, our environmental management has been meeting the requirements of EMAS III.

## STORAGE

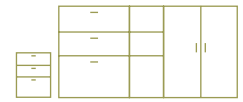

# Pretty neat and tidy.

Whether with or without handle – it is a REISS roller container that will make your workplace complete. Drawers in different heights and many practical organisation aids ensure a clear overview of all your equipment at any time and hence guarantee efficient working. In addition, the large selection of decors, handle shapes and colours allow you to create your individual workspace.

The REISS roller containers offer optimally organised storage space under the table and are the perfect supplement to any workplace.

## STORAGE

## Well organised.

Our standing containers with or without handle fit perfectly into modern office landscapes. Despite their small footprint, they offer enormous storage space and help you organise your office. If required, they even enlarge your workplace. Simply adjust the container in height and it will extend your desk. This makes the standing container a perfect solution for complex jobs – especially for tables without height adjustment.

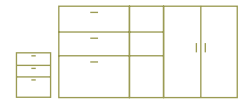

Standing containers with drawers or sliding pull-out front offer a wide range of organisational options and additional storage and working space when extending the desk on the left or right.

REISS is always close to you.  
Our sales network includes  
more than 300 specialist  
retailers in Germany and Europe.  
Alternatively visit our showrooms  
in Bad Liebenwerda, Berlin and  
Frankfurt am Main. We look  
forward to seeing you.

Ideal for those who want more.

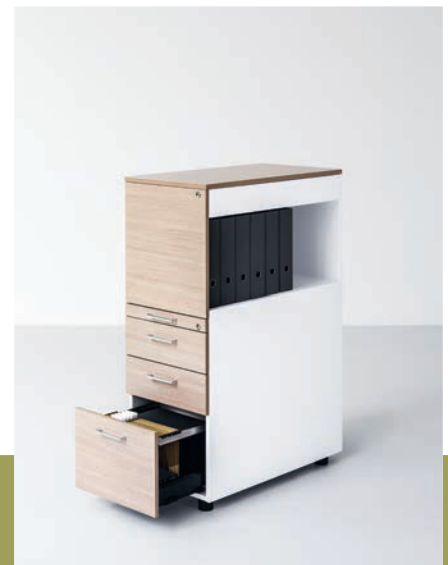

## STORAGE

REISS high containers provide even more space for ideas. With the hinged top panel and the lockable valuables compartment with cable outlet, smartphones or tablets, for example, can be safely stowed away and charged at the same time. The drawers have a central lock and a pull-out stop.

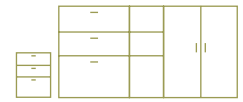

In addition, the high container supports work-friendly room acoustics and privacy.

High container Basic with sliding pull-out front that can be positioned on the left or right of the desk. It is lockable and can be individually configured, for example, with material tray in the top shelf, with lockable valuables compartment, optional with combination lock, a file compartment, or a hanging frame system.

High container Duo for use on both sides with sliding pull-out front, lockable and versatile in configuration, for example, with material tray in the top shelf, with lockable valuables compartment, optional with combination lock and folder compartment, single-row hanging frame and pin board or magnetic perforated metal wall.

STORAGE

## Structure for individualists.

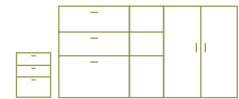

Our high containers with sliding pull-out front, which can be used on one or both sides, make workplace design particularly flexible. A wide range of organisational aids allow setting up an individual organisation system. In addition, high containers provide privacy and have a positive effect on room acoustics.

# The mobile high-rack storage.

Practical, versatile and mobile – the mobile high containers of the REISS container system offer lots of space for storage and cut a fine figure anywhere in the office. They can also be equipped with a desk panel for standing work. And thanks to their striking height, they also fit perfectly into any room as room dividers.

STORAGE

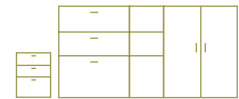

High container with integrated transportation handle, coat hook and letter slot.

High container with inclinable desk panel, closed and open.

STORAGE

# Take-away workplace.

The mobile roller door cabinets of the REISS container system are real storage masters. They can be very flexibly integrated into the workplace structure and offer space for two or three folder heights. For the catering area, a roller door cupboard with specially equipped drawers is available.

Top panel in body decor.

Top panel made from satin-finished glass.

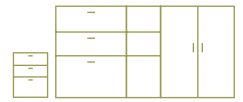

# The new service specialist.

REISS catering containers make light work of catering for guests and increase meeting productivity. Drawers, especially designed to store cutlery, glasses and tableware offer plenty of storage space and are clearly laid-out. And with its sturdy castors the REISS catering container is always ready when and wherever you need it.

Optimum usability thanks to adjustable drawer inserts and secure standing even when the drawer is fully pulled out.

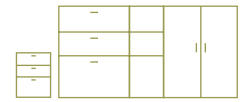

STORAGE

# Well-organised technology.

Enjoy more legroom and space on your desk. In the REISS technology container, PC and printer are perfectly stored and always ready to hand. No matter which design you choose, whether it's the technology container with PC compartment and pull-out shelf or the technology container with open top access for the printer – you always leave a well-organised impression.

STORAGE

Well-arranged working places according to your taste: For individual accents we offer a variety of different décors and colours.

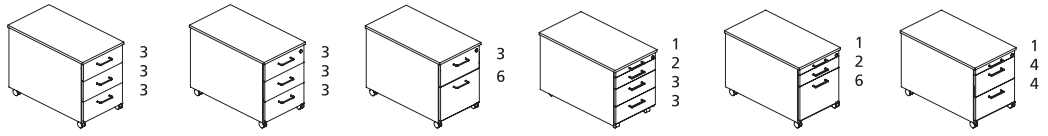

Space-saving pull-out shelf for printer.
