

REISS Eco N2 Flexibility in Top Form.

We know how to create offices.

All-rounder for high standards.

REISS Eco N2 combines flexibility and ergonomics. The variety of dimensions, décors and materials makes the series a multi-talent in setting up office environments – from the single workplace to open-space offices. Individually height adjustable workstations are the focus of the functional, ergonomic design that enables sophisticated office design solutions at the highest level.

AT A GLANCE

- Working tables with a variety of table top shapes
- Squared column profile (70 x 70 mm)
- Height adjustment – fixed height, height-adjustable in the sitting range, motorised height-adjustable in the stand-sit range
- Extension elements and meeting extensions
- Conference tables

Whether a single workstation or an open-space office, REISS Eco N2 permits the realisation of the most varied furnishing concepts. With varied height adjustment possibilities and consistently functional design, it fulfils all ergonomic demands.

HIGHLIGHTS AND OPTIONS

- | Table top with sliding plate function
- | Intelligent cable management
- | Beamless frame for comfortable legroom
- | Metal legroom screen
- | Optionally integrated desk screen for privacy
- | Slim profile – elegant design

STAND-SIT-WORKSTATIONS

- | Safety with sensitive, sensory collision protection
- | Max. load capacity. 100 kg
- | Different manual switches for motorised quick adjustment or sensor controlled height adjustment with REISS Touch

Ergonomic individuality.

Office environments can grow flexibly with REISS Eco N2. The desks of the series can be connected or even retrofitted comfortably and in compliance with standards thanks to the REISS coupling. The optionally integrated privacy protection wall remains at the same height and ensures visual calmness. REISS Eco N2 meets all requirements of a performance enhancing healthy office workplace.

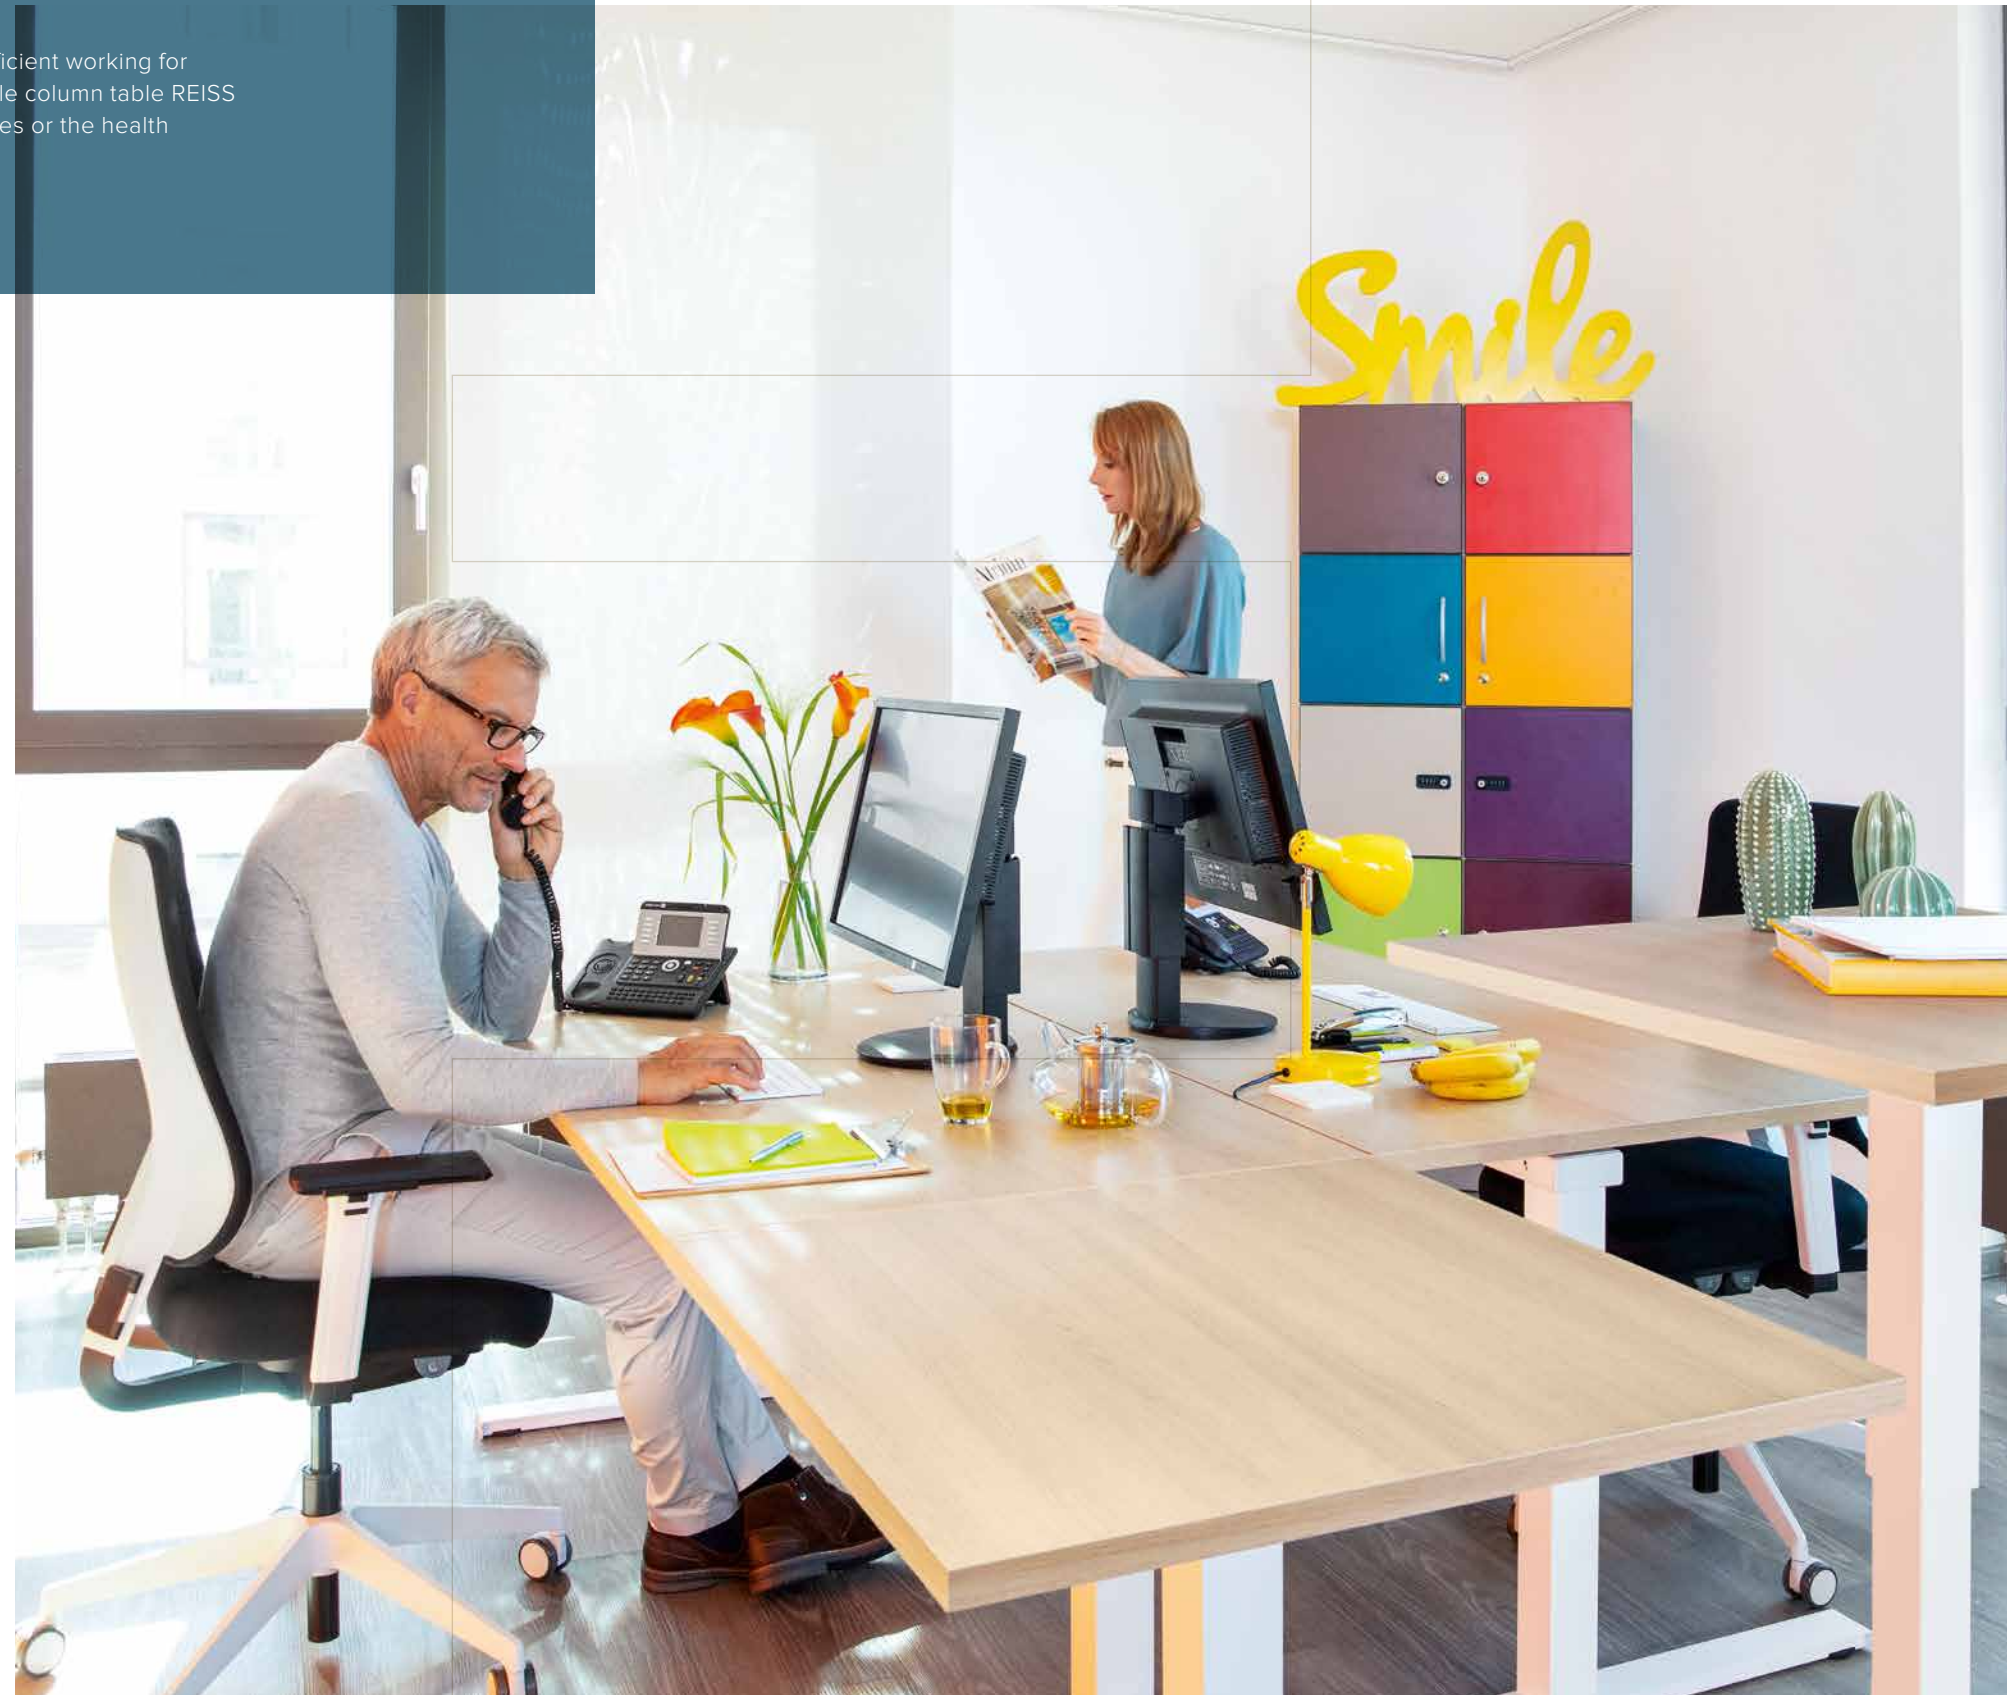

Fixed height
740 mm

Height
650–850 mm

Motorised quick adjustment
650 – 1.250 mm

Functional claim.

With its clear design language the REISS Eco N2 delivers the best conditions for efficient working for each office situation and requirement. In combination with the high adjustable single column table REISS Novo, it is easily expandable to a stand-up work place – for meetings with colleagues or the health promoting change between sitting and standing.

Well structured.

REISS Eco N2 speaks a clear design language even in large rooms with several workstations. Functionally organised room structures allow undisturbed working and concentrated thinking even in demanding group workplaces.

REISS is very close to you. Our sales network includes more than 300 specialist retailers in Germany and Europe. You can also visit our showrooms in Bad Liebenwerda, Berlin, and Frankfurt am Main. We look forward to seeing you!

The combination of high adjustable and stand-sit-desks or the linking of several REISS Eco N2 desks not only provide a harmonious overall appearance, but thanks to the privacy screens and organisational aids also efficient and structured working.

Communication at a high level.

The ergonomic design of the tables, such as the comfortable legroom and the individual height adjustment, ensures that the focus remains on one thing: communication while sitting or standing.

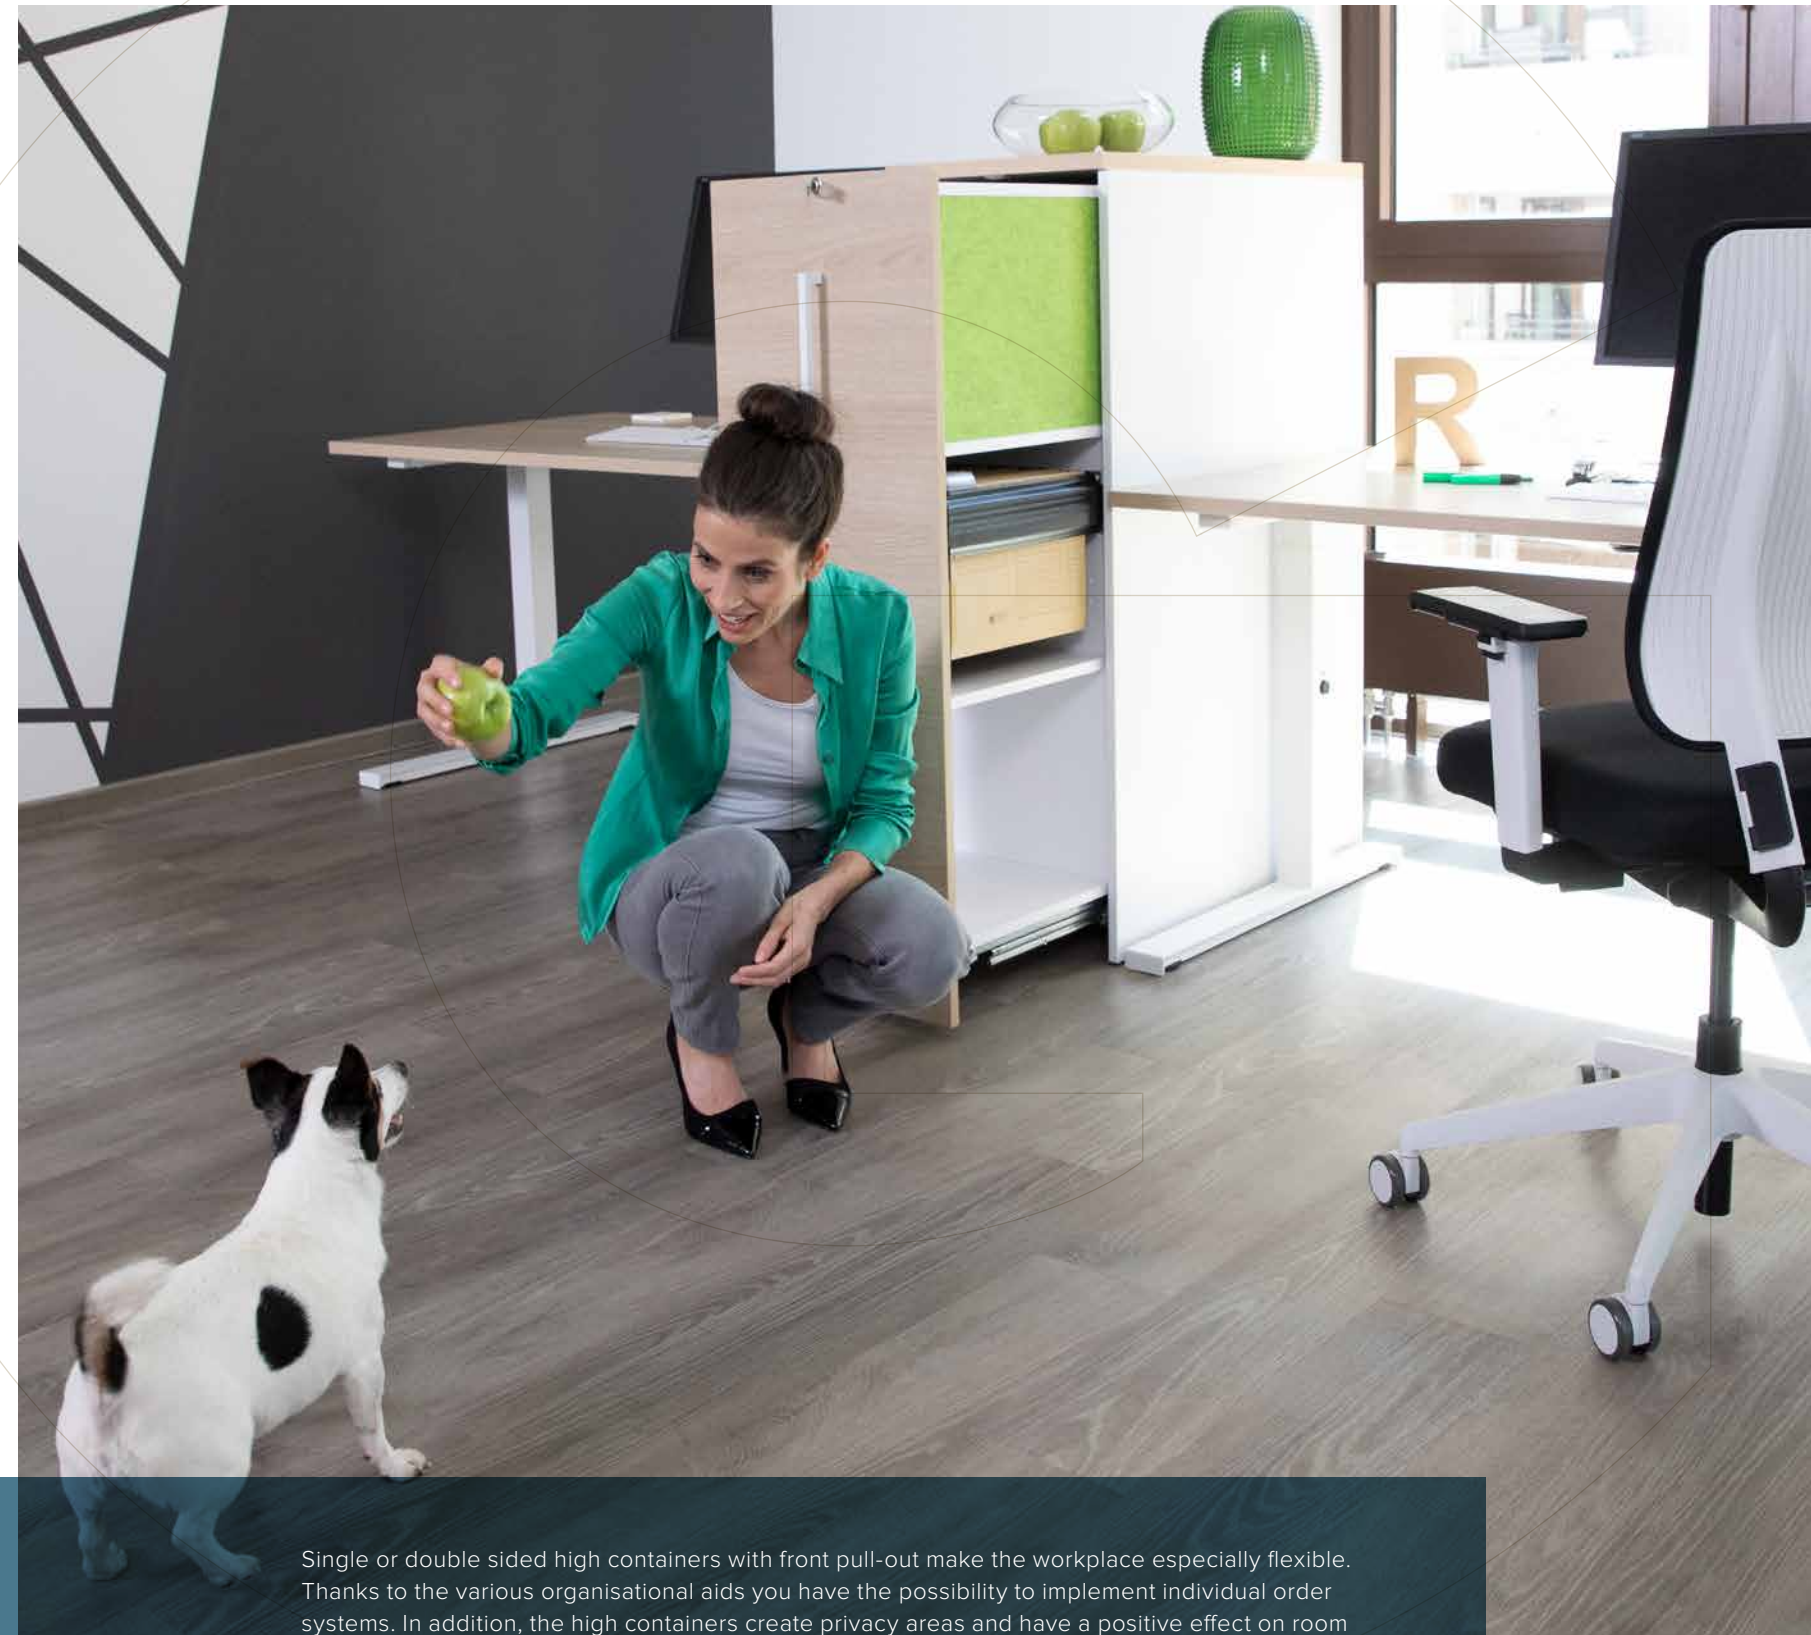

The communication solutions of REISS Eco N2 distinguish themselves through their clear design as well as the diverse equipment and combination options. Thanks to this versatility they fit precisely in every office formation.

Easy to handle.

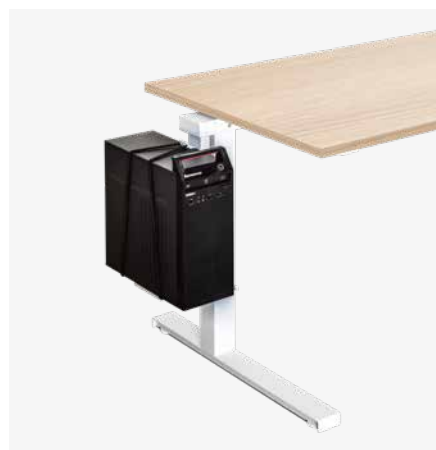

Our stand containers fit harmoniously in modern office environments and provide excellently organised areas. They can be adapted in height and permit extending the desk on the right or left side. This is exactly how the stand containers become quickly a perfect solution for bigger tasks – especially with desks that have no height adjustment.

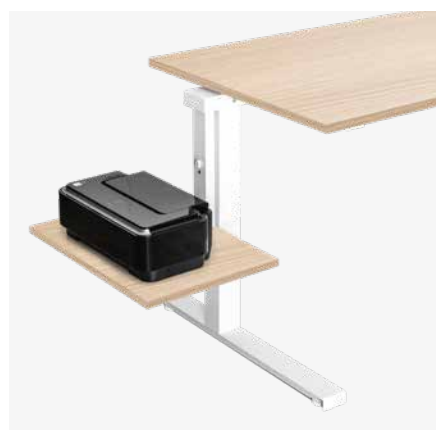

Single or double sided high containers with front pull-out make the workplace especially flexible. Thanks to the various organisational aids you have the possibility to implement individual order systems. In addition, the high containers create privacy areas and have a positive effect on room acoustics.

Accessories

CPU holder

Equipment level

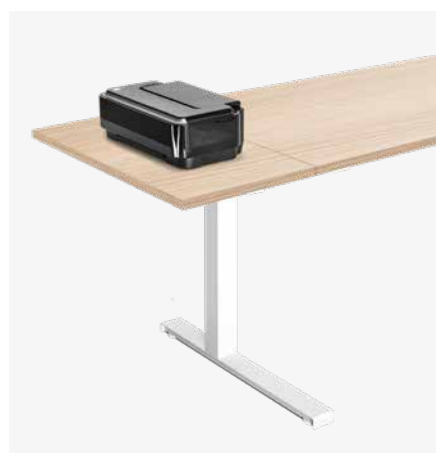

Table extension

Legroom screen, metal

Horizontal cable duct, collapsible (inwards or outwards)

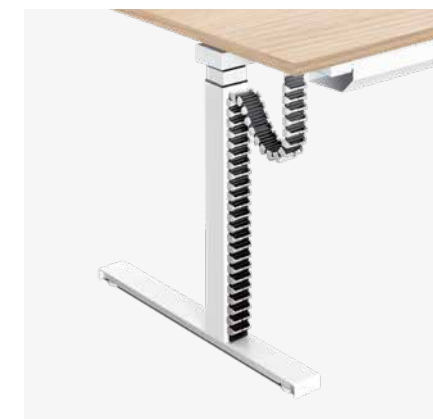

Thanks to the sliding table top easy access to the horizontal cable duct (safety lock)

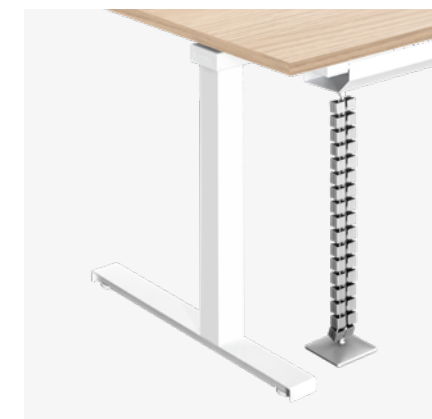

Electrification

Vertical cable routing

Vertical cable routing through cable chain

Horizontal cable duct, closed with cable chain
