

REISS Eco V
Achievers committed to quality.

We know how to create offices.

Faster and smoother
runner

Lift quick adjustment
620 – 1.280 mm

HIGHLIGHTS AND OPTIONS

- ▮ Lift table with pneumatic spring
- ▮ Highly responsive, smooth and practically noiseless height adjustment
- ▮ Safety fall arrestor prevents the table top from „sagging“
- ▮ Without motor: Maintenance and annual inspection not required
- ▮ Interior Columns in chrome optics
- ▮ 15 kg max. load capacity, optional max. 30 kg (Eco V Plus) for desks with 800 mm depth
- ▮ Table top with sliding table function

REISS Eco V combines all the advantages of the pneumatic spring principle with those of a large table top. A gentle pressure is enough to adjust even stand-sittables with dimensions up to 2000 x 900 mm in a flash, quiet and continuous way. Thanks to its chromed interior columns and functional design, the Eco V presents a fine figure at every level.

The focus of good conversations.

Sitting for focussed meetings, standing for brainstorming sessions, the barrel-shaped Eco V conference table delivers everything you need for productive discussions: plenty of space for good ideas and study flexibility, allowing it to be easily adapted to any situation.
