Replacement flat bow handle

Dear Ladies and Gentlemen

Unfortunately our current flat bow handle is no longer available, therefore we have to change to another handle. The new handle is similar to the previous model both technically and in appearance and is available in the colours that can be ordered according to the REISS cabinet and container price list.

For comparison:

Above, the new handle in chrome, matt

Below, the previous handle in light grey

The new flat bow handle will be available for order and delivery with the next pCon update.
 The previous handle can still be ordered until 30.09.2022!

If you have any further questions on this topic, please do not hesitate to contact your REISS area sales manager and the sales team.

Best regards,

Michel Tulke
 Head of Internal Sales
